GREEN CLAY MAKES STATEMENT

Being a candidate for the Democratic nomination for Representative from Madison county in the next General Assembly of Kentucky I think it proper to outline to the citizens of Madison the principals and aims that will govern my actions if elected a member of the law making body of our state.

I was born and raised on a farm in this county near Foxtown, am forty-one years old and have voted the straight Democratic ticket at every election, both local and national, since my twenty first birthday. Was educated in the common schools and the High School at Ann Arbor Michigan, Central University, Richmond Ky., and graduated from the Law Department of the Cumberland University, Washington City. For four years I practiced law in Richmond Ky., and am now a member of the bar here though I have not been in active practice for many years.

My business interests are now, and have been for several years, centered entirely in farming on a part of the old home near Jack's Creek pike. I am a heavy tax payer in this county and the interests of every farmer and worker in Madison are the same as mine. It will be my aim to do away with every expenditure of public money wherever possible consistent with good government. I am heartily opposed to any extravagance in public office or appropriation of money where it can be avoided.

I am well aware that the farmer, laborer and small business man has not been justly considered heretofore by our lawmakers. This condition of things I shall endeavor to remedy to the end that no special privilege or exemption from the burden or government shall be granted or allowed any man or body of men. I shall work towards an equalization of taxes on the part of every citizen of the state so that the protection and benefits of good government will be allotted to all of us in equal proportion. I shall endeavor to see that every business interest in Kentucky toes the line of strict justice and conformity with the legal obligations set forth in the Statutes. I will go farther than that. If the laws now in force do not hold every man to a strict adherence to justice I shall try to amend those laws or pass new ones that will hold him in obedience to the will of the majority. There must be strict equality before the law.

There will be no effort on my part to cripple or hold back business progress in any line but there will be no undue advantage taken if I can prevent it. At the same time my every effort will be towards the uplifting of the social and moral standard of our citizenship, knowing as I do that only through moral and social advancement will we gain peace, comfort and happiness. It would be impossible at this time to state definitely what will be the exact stand taken by your representative on any particular bill before the House until that bill is created but I believe this short statement will outline what my attitude will be in case you see fit to allow me the honor of representing you.

Finally, in asking the support of every Democrat in Madison county in his most important election, I will refer you, in all sincerity, to the many good people in Madison who know me intimately as to my qualification and fitness for the Legislature.

Respectfully,
GREEN CLAY.

The Conquest of Mt. McKinley.

There has not been much of a stir over the conquest of Mt. McKinley by Archdeacon Stuck. Yet this peak, the highest in the whole western world, has been the goal of explorers for more than a decade.

Dr. Cook claimed to have scaled it to the summit in 1903. We recall hearing him lecture on the ascent before the American Geographical Society in New York, in 1904. And we recall another episode in connection with this alleged conquest. The doctor was booked to lecture in Atlantic City in September 1909, on the discovery of the North Pole, when suddenly out of Montana the news came hot over the wire that the Doctor's Mt. McKinley guide had repudiated his claim of having climbed the big mountain.

It was that affidavit, made by the guide, that really was the straw that broke the back of this fakir's camel. Dr. Cook subsequently went to Montana to nail the lie; confronted the guide that knew the truth, and heard himself called a liar to his teeth. A few weeks after that he vanished, and the country knew the truth.

Some explorers have said that the trip up the 25,000 feet of Mt. McKinley is more difficult than the trip to the pole, for the reason that arctic conditions are encountered from the very base. In the conquest of the great mountains, for example in the Andes and Himalayas, real hardships of cold and ice are encountered until the climber has ascended two miles or more.

Until Archdeacon Stuck conquered Mt. McKinley, the American mountain climbing record was held by a foreigner, the Duke of Abruzzi, who scaled Mt. St. Elias, situated in Alaska, no great distance from Mt. McKinley. It was this same Italian Duke, it will be recalled, who subsequently attempted to reach the North Pole, but who reaped his greatest harvest in fame through the report that he was engaged to marry Miss Katherine Elkins.—Exchange.

Bees Swarm On And Kill Pa. Man.

When Jeremiah Kramer, aged 72, who resides near Pittsburg, Pa., entered his wagon shed the other day he ran into a lot of bees, which were about to swarm on projecting beams. Instead of taking to the beams, the bees enveloped Kramer and piled onto his two-foot-long whiskers. Kramer yelled for help and fought the bees as best he could, but he was soon blinded and helpless from their stings.

The onslaught of the bees soon rendered him unconscious, and he was found by his son, Joshua, three hours later lying on the wagon-shed floor, with the myriad of bees on his head, arms and neck, which were swollen to twice their natural size. Although medical aid was hurriedly summoned Kramer died a few hours later.

To The People of Madison County.

The charge has been made, I am informed, that I am ineligible to hold the office of County School Superintendent, because my certificate is not good. In refutation of this it gives me pleasure to publish the following, which settles the question for once and all. Read it and if you have done me the injustice to repeat the charge, show the right spirit by correcting it.

Very Truly,
B. F. EDWARDS.

TO WHOM IT MAY CONCERN.

I have examined the records in regard to the State Certificate of B. F. Edwards and find that the certificate was issued July 9, 1910, and will not expire until July 9, 1918, which, under the law, makes him eligible to the office of County Superintendent.

Respectfully,

V. O. GILBERT,
Assistant Superintendent of Public Instruction, Frankfort, Ky., July 1, '13.

Pretty Post Card.

The J. W. Zaring Grain & Milling Co. Mr. Allen Zaring at the helm, has just gotten out a new post card of its mill. It shows "Zaring's Mill by Night," and is a beauty indeed. It gives the mill lighted up and running at its full capacity, turning out Zaring's Patent Flour and the several other brands made by that well-known and popular business concern. It is a very unique post card a splendid advertisement of the big and busy concern.

We have arranged for a Special Sale

On the celebrated Stearns & Foster Mattress and are offering this most Comfortable, Durable and Sanitary of all Mattresses, in selected patterns of the best qualities of Satin-finish, Dust-proof Tickings—WITHOUT EXTRA CHARGE.

Beware of so-called "Special Sales" on "Cotton-felt" or "Felt" Mattresses—said to be the "genuine kind" and offered at such ridiculously low prices as are sometimes seen displayed. You do not know WHAT sort of material has been hastily STUFFED into the ticking. From a Sanitary standpoint, it may be vile; unfit for any person to sleep upon. As for genuine Comfort and Durability, such Mattresses are utterly worthless. It don't pay to buy them.

Stearns & Foster Mattresses have a laced opening (Pat. applied for) through which you can see and examine the inside of the Mattress you GET. That's the safe way to buy a Mattress. You know what you are getting.

Stearns & Foster Mattresses are made of Clean, Sanitary Cotton; felted into hundreds of little webs forming many Springy, Buoyant layers standing nearly three feet high. These layers are then LAID BY HAND and compressed to ONE-SIXTH their original height and encased in the ticking; then tufted to just the proper tension so as to be Soft, yet Firm, half yielding to your figure, but supporting it in perfect relaxation.

You will say—

"I never Knew a Mattress could be so Comfortable."

That's just what satisfied users of Stearns & Foster Mattresses are saying. You owe it to yourself to get one and enjoy rest that is Refreshing—Comfortable—Healthful.

You don't have to be put to the expense and inconvenience of sending a Stearns & Foster Mattress away to be "Made Over" or "Renovated." They never require it. An occasional Sun Bath keeps them fresh and clean.

Don't Fail to attend this Sale. Come today.

Select the Mattress you want—NOW. Don't put up longer with that old uncomfortable Mattress.

A Comfortable Night's Rest on a Stearns & Foster, Costs too Little.

WHY

Has the Hustling Cash Store sold so many more goods so far this season than ever before?

Why have Hamilton Bros. at such an early date, had to search the markets for an almost new stock of spring merchandise?

Why do we buy these goods always at bottom prices?

BECAUSE

Because we sell for cash and can, of course, pay cash. And by paying spot cash we can get the lowest possible market price

Because we are satisfied with a reasonable profit and MAKE GOOD what we say about every article sold

Because we buy often and keep our stock fresh and new, and extend a courteous invitation and cordial welcome to each and every patron. Therefore

People Looking For Good Quality Materials

at reasonable prices make their purchases at our store and always with the understanding that if goods are not as represented, we want them and will make them satisfactory. Having just returned from the markets our stock is right now up to full standard and we have never shown more beautiful assortments

Respectfully

HAMILTON BROS.
